IDENTIFIERS *Oklahoma

ABSTRACT

Data on degrees conferred in 1981-1982 in Oklahoma colleges and universities are presented by sex and by field of study. Summary tables also show number of degrees and percentage distribution by racial and ethnic origin for each institution. Findings include the following: In 1981-1982, 18,725 degrees were conferred--4,560 associate degrees, 10,266 bachelor's degrees, and 2,996 master's degrees. At the bachelor's level, the number of degrees in computer and information sciences more than tripled from 1976-1977 to 1981-1982, while percentage increases also occurred for engineering, communications, business, and architecture. The following fields experienced decreases in degree production during the past 5 years: foreign languages, fine and applied arts, and biological sciences. Different trends were found at the master's and doctoral levels. One of the most noticeable trends was the increasingly larger share of degrees earned by women, particularly in the areas of business, engineering, and computer science. The percentage of academic degrees awarded to minority students varied from 29.4 percent at the doctoral level to 5.5 percent at the first-professional degree level. (SW)

[illegible] Regents for Higher Education in compliance with Title VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and other federal laws and regulations do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap, or status as a veteran in any of their policies, practices or procedures. This includes but is not limited to admissions, employment, financial aid and educational services.

This publication was prepared and distributed on authorization of the State Regents as a regular part of the work of the agency. There were 300 copies printed by Allens Litho Printing Company at a cost of $570.00 ($1.90 per copy).

OKLAHOMA STATE REGENTS FOR HIGHER EDUCATION
State Capitol Complex, Oklahoma City

SUMMARY OF DEGREES CONFERRED
1981-82

Oklahoma public higher education conferred a total of 18,725 academic degrees during the 1981-82 fiscal year, including associate, bachelor's, master's, first professional and doctor's degrees. The total number of degrees conferred in public institutions in 1981-82 constitutes a decrease of 452 academic degrees from the number conferred in 1980-81, a percentage decrease of 2.4. Only associate degrees showed a gain over the previous year. First professional degrees decreased 2 from 571 to 569, a decrease of 0.4 percent; and doctor's degrees decreased 20 from 354 in 1980-81 to 334 in 1981-82, a decrease of 5.6 percent. Associate degrees rose by 0.2 percent from 4,553 in 1980-81 to 4,560 in 1981-82. For the same period, bachelor's degrees decreased by 3.3 percent, from 10,619 to 10,266; and master's degrees decreased by 2.7 percent, from 3,080 to 2,996.

In comparing degrees conferred by public institutions over the last five-year period, the percentage increases are at the associate level with an increase of 18.7 percent, up from 3,842 in 1976-77 to 4,560 in 1981-82; and at the first professional level with an increase of 37.4 percent, up from 414 in 1976-77 to 569 in 1981-82. The largest decline for the period was in the category of Certificates, which declined for the five-year period by 70.3 percent, down from 1,287 to 382. Bachelor's degrees increased by 75, from 10,191 to 10,266, a percentage increase of 0.7. Doctor's degrees declined by 39 (from 373 to 334), for a percentage decrease of 10.5 percent. Master's degrees decreased 15.0 percent, going from 3,524 to 2,996.

Analysis of degrees conferred by field of study at the bachelor's level in public institutions of higher education during the past five years shows only a few significant shifts of interest. The sharpest percentage increase was in the area of Computer and Information Sciences. The number of degrees in this area more than tripled, going from 62 in 1976-77 to 218 in 1981-82, for an increase of 251.6 percent. The area of the next greatest percentage increase was in the field of Engineering (from 584 to 1,028), with a percentage increase of 76.0. Communications came next with a 21.1 percentage increase (from 342 to 414). Business increased 21.1 percent and Architecture 19.6 percent. Several divisions of study showed decreases during the past five years. Foreign Languages dropped 49.3 percent (from 75 to 38). Fine and Applied Arts also declined, dropping by 99 (from 282 to 183), or 35.1 percent; and Biological Sciences dropped by 161 (from 501 to 340), or 32.1 percent.

At the master's level, the following major shifts by academic discipline have occurred during the past five years from 1976-77 through 1981-82: Psychology, up 48.9 percent (47 to 70); Agriculture, up 28.8 percent (52 to 67); Communications, up 20.0 percent (from 30 to 36); Home Economics, up 16.7 percent (from 54 to 63). Mathematics dropped by 58.6 percent (from 29 to 12); Library Science down 53.0 percent (from 83 to 39); Public Affairs and Services down 46.9 percent (from 277 to 147); Business and Management down 40.9 percent (from 641 to 379). Education had the largest numerical drop of 333 (from 1,819 to 1,486), or 18.3 percent. At the doctor's level, the trends during the past five years, 1976-77 through 1981-82, were as follows: Communications, up 166.7 percent (from 3 to 8); Business and Management, up 16.7 percent (from 18 to 21); Foreign Language, down 83.3 percent (from 6 to 1); Mathematics down 70.0 percent (from 10 to 3); and Psychology, down 64.5 percent (from 31 to 11).

In 1981-82 the institutions in the public sector most productive of degrees were, by level: Bachelor's, Oklahoma State University, 3,068 (29.9 percent of all such degrees awarded by public institutions); University of Oklahoma, 2,358 (23.0 percent); Central State University, 1,316 (12.8 percent); Northeastern Oklahoma State University, 694 (6.8 percent); and Southeastern Oklahoma State University with 536 (5.2 percent). Master's, University of Oklahoma (including Health Sciences Center), 860 (28.7 percent of all public institutions); Oklahoma State University, 657 (21.9 percent); Central State University, 564 (18.8 percent); and Northeastern Oklahoma State University, 328 (10.9 percent). Doctor's, Oklahoma State University, 187 (56.0 percent of all public institutions); and University of Oklahoma (including Health Sciences Center), 147 (44.0 percent).

Summary tables are included showing number of degrees conferred and percentage distribution by racial and ethnic origin for each institution in Oklahoma public higher education. The data show that 83.9 percent of the total degrees conferred by public higher education institutions went to individuals in the category of White Non-Hispanic; 6.3 percent to those categorized as Black Non-Hispanic; 1.1 percent to those classified as Hispanic; 1.1 percent to those classified as Asian/Pacific; 4.3 percent to those categorized as American Indian/Alaskan; and 3.3 percent to those classified as Non-Resident Alien. The percentage of academic degrees awarded to minority students varies from a high of 29.4 percent at the doctor's degree level to a low of 5.5 percent at the first professional degree level.

One of the most noticeable trends in higher education continues to be the increasingly larger share of degrees earned by women. The areas of Business, Engineering, and Computer Science are where women are beginning to increase their impact. In comparison of total degrees earned at all levels by women at all public institutions of higher education in 1981-82 and 1976-77, the percentage rose from 41.7 in 1976-77 to 47.5 in 1981-82. At the associate level in 1981-82, women earned 47.7 percent of all degrees compared to 43.3 percent in 1976-77. They earned 48.2 percent of all bachelor's degrees conferred in public institutions in 1981-82 as compared with 41.8 percent in 1976-77. At the first professional level, the percentage for women in 1981-82 was 22.5, as compared with 16.4 percent in 1976-77. Women earned 62.4 percent of all master's degrees conferred in public institutions in 1981-82 as compared with 44.5 conferred in 1976-77. In 1981-82, they earned 31.4 percent of all doctor's degrees compared to 22.8 percent in 1976-77.

NOTE: Comparisons in this summary include data for public higher education institutions only. Two private institutions--Oklahoma City University and Phillips University--were unable to supply 1981-82 data so that it was not possible to make comparisons in the private sector or at the grand-total level.
